The Honorable Edmund S. Villagomez
Speaker, House of Representatives

The Honorable Karl King-Nabors
Senate President
24th Northern Marianas Commonwealth Legislature
Saipan, MP 96950

10/6/26

Dear Speaker Villagomez and President King-Nabors:

This is to inform you that I have signed into law House Bill 24-108, HS1, SD1, CCS1, entitled, "to provide a Budget Plan of the Commonwealth of the Northern Mariana Islands for Fiscal Year 2027 and make appropriations for the operations and activities of the Government of the Commonwealth of the Northern Mariana Islands, its agencies, instrumentalities, and independent programs, and to provide budgetary authority for government corporations; and for other purposes." The measure includes the appropriation for the Minimum Annual Payment to the Settlement Fund, ensuring the continuity of pension benefit payments in Fiscal Year 2027.

Section 7(b) of the CNMI Constitution provides the Governor 20 days to consider any appropriation bills. However, H.B. 24-108, HS1, SD1, CCS1 was received by my office just hours prior to the opening of the new fiscal year, leaving me with insufficient time to thoroughly review the impact of the budget provisions across all instrumentalities.

After careful consideration of our current fiscal circumstances and the changing economic conditions facing the government, I have determined that certain provisions are no longer aligned with our fiscal priorities or policy objectives and cannot be responsibly implemented under present conditions. Accordingly, and after considering available alternatives, it was necessary for me to determine that a temporary government shutdown was necessary to allow these underlying fiscal and policy concerns to be addressed in a deliberate and lawful manner while safeguarding essential government functions and services to the fullest extent permitted by law. Our objective is to uphold the principles of responsible governance, restore fiscal discipline, and ensure that government operations reflect the economic realities we face today.

Although I commend the members of both the House and Senate for their efforts in ensuring the enactment of the Commonwealth's expenditure plan for Fiscal Year 2027, I remain hopeful that the Legislature will act more expeditiously in the future, allowing sufficient time for the Executive to

exercise the full 20-day period provided under the Constitution to thoroughly review and consider such measures.

To achieve the projected annual revenue target of approximately \$152.8 million—equivalent to roughly \$12.7 million monthly or \$38.2 million quarterly, \$47.7 million is reserved for earmarks and \$100.7 million was allocated for all branches, departments and instrumentalities provided in Schedule A. The Department of Finance's Division of Taxation and Revenue must implement a proactive revenue assurance strategy focused on targeted, high-yield audits and the modernization of revenue collection systems. At the same time, short-term compliance incentives, coupled with clear public communication regarding statutory deadlines and payment obligations, can encourage timely voluntary remittances while reducing unnecessary enforcement burdens and improving overall collection efficiency.

COMMENTS ON APPROVED PARTS OF THE ACT

Section 601. Utilities.

Section 601(a) This provision requires CUC monthly utility billings for departments and agencies to be paid by the central government. The terms “department” and “agency” are not defined, so it is unclear whether this provision is intended to require payment for billings for the Mayors' Offices, the Judiciary, and the Legislature.

Section 602. Hiring Restriction.

Section 602(a) provides that no new or vacant position shall be filled except positions that are essential/critical for the delivery of public services as defined in Section 103(c). First, I note that “essential” positions are defined in Section 103(c), while “critical” positions are defined in Section 103(d). “Critical” positions include those “as determined by the Governor.” Provided that I retain the authority to designate certain positions as critical so they may continue to be filled, this section will not restrict the Executive Branch's ability to respond to operational needs.

In addition, Section 602(b) provides that a Notice of Personnel Action is deemed processed and filled if a Notice of Personnel Action has been executed, a candidate has been selected, or action has been initiated to fill a vacancy. I note that this may only be enforceable to the extent it refers to authorized positions with adequate funding.

Section 610. OGM Funds in Excess of Office of Grants Management Budget.

Allocating excess funds received by the Office of Grants Management to the retirees' benefits is insufficient to sustain adequate funding and operation of the program as required payments must be made timely to avoid termination of the plan. Direct funding appropriation is necessary and should be prioritized in the revised budget for Fiscal Year 2027.

I also note that OGM-SC is tasked by statute with assisting instrumentalities across the CNMI government with applying for, managing, and complying with the terms and conditions of federal grants, not only with directly administering grants itself. OGM staff should keep the Legislature and Executive Branch abreast of their efforts to assist various agencies with audit compliance as well as their management of grants directly administered by OGM.

Section 614. FEMA Reimbursements and Consumer Protection Settlement Funds.

Section 614(b) provides that any nonrestricted consumer protection settlement funds received by the Government during Fiscal Year 2027 shall be reserved for appropriation by the Legislature.

I note that the Meta settlement funds cannot be considered “nonrestricted” funds as the settlement agreement states that the funds are to be used “for any lawful purpose consistent with the Settling State’s Attorney General’s authority.” *People of the State of California, et al. v. Meta Platforms, Inc., et al.* (N.D. Cal. Aug. 26, 2026), ECF No. 572-1, Settlement Agreement VI.G.1.

This amount therefore will not be made available for appropriation. I anticipate that those funds will be made available for expenditure by application to the Office of the Attorney General, in a manner similar to how use of Purdue Pharma settlement funds is authorized.

Section 704. Legislative Branch.

Section 704(h) allows salary adjustments for staff of the Legislative Bureau and the Youth Congress with an annual performance evaluation and consultation with the Speaker of the House and President of the Senate, subject to funding. I note that this is inconsistent with the Legislature’s intent to impose a salary cap on Executive Branch positions, which I have disapproved as discussed below.

Section 705. Executive Branch

Section 705(e) provides compensation beyond normal operating hours, creating an inconsistency with Schedule A, which provides compensation equivalent to only 60 hours. CIQ personnel must first fulfill their regular 43-hour work requirement before overtime can be compensated. Accordingly, funding should first cover the full regular work schedule before funds are made available for hours beyond normal operating hours.

Section 708. Third Senatorial District – Mayor of Saipan; Mayor of the Northern Islands; and Saipan and Northern Islands Municipal Council.

Section 708(b) of the Act requires \$100,000 in funds to be used for typhoon recovery costs reimbursable by FEMA. I note that the first sentence requires the funds to be used for typhoon recovery costs reimbursable by FEMA. I recommend that the Mayors’ Offices consult with the Governor’s Authorized Representative regarding which costs are reimbursable.

Section 710. Independent Programs

Section 710(c) provides that the expenditure authority for funds allocated to the Public Assistance Office shall be the Governor’s Authorized Representative, but the corresponding line item in Schedule A has \$0 appropriated to it. Reprogramming any funds into a line item for Public Assistance matching will require subsequent amendment of the budget law.

Section 802. Non General Revenue Sources

Allocation of Commonwealth Worker Fee Funds pursuant to Section 802(b) may need to be updated pursuant to the current year’s spending plan agreed between the CNMI Department of Labor and US Department of Labor.

Section 802(c) provides that in the event that non-general revenue funds are available to fund the GHLI program, the funds shall be used for such program. I observe that the GHLI program should be directly and fully funded with a dedicated line item to avoid breach of the Settlement Agreement.

VETOED PARTS OF THE ACT

Section 102. Findings and Purpose.

Section 102(c) seeks to prohibit furloughs until regulations are promulgated by the Civil Service Commission. New proposed furlough procedures were published in the September 15, 2026 volume of the Commonwealth Register and are pending effective promulgation. However, government agencies already have the authority under NMIAC § 10-20.2-257 and applicable law to furlough personnel.

Section 102(e) provides that the Commonwealth shall seek funding from various sources to fund the Public School System. This section does not present a coherent plan for consistent allocation to the Public School System across all four quarters of Fiscal Year 2027. In addition, the Meta settlement funds and FEMA reimbursements are not revenue available to the legislature for appropriation.

Section 302. Prior Certification of Funds.

The second sentence of Section 302 provides that the prior certification of funds does not apply to certain instrumentalities of the Commonwealth government. This section unreasonably permits deficit spending without a certification of fund availability by certain instrumentalities of the Commonwealth government but not others.

Section 404. Work Hours.

I have vetoed Section 404 because its minimum compensation requirements cannot be implemented on October 1, 2026, without first satisfying applicable personnel, contractual, and fiscal requirements.

For civil service employees, NMIAC § 10-20.2-344 requires ten working days' advance notice when an employee is changed from a standard workweek to a non-standard workweek. The reduction of work hours for excepted service employees is likewise subject to the terms of applicable employment contracts and personnel requirements. In certain cases, implementation may require advance notice, contract modification, or other action before a reduction in hours or compensation can lawfully take effect.

Section 404 also creates a significant cash-flow problem. The Department of Finance cannot guarantee monthly allotments sufficient to satisfy the required compensation level if projected revenues are not collected in full or if other budgetary obligations require the reallocation of available resources.

The resulting fiscal impact is estimated to increase the Commonwealth's budgetary gap by approximately \$3.3 million, including the cost of maintaining the required compensation level for the Government workforce and the 64-hour requirement applicable to the Public School System.

The underlying fiscal reality is straightforward. The Commonwealth is projected to collect approximately \$12.7 million in gross revenue each month. Approximately \$4.3 million is committed to MAP payments and other earmarked obligations, leaving approximately \$8.4 million for the operations of all branches, departments, agencies, and instrumentalities of the Commonwealth.

Those recurring revenues are insufficient to support the full level of expenditures contemplated by Section 404 without additional revenues, expenditure reductions, or the identification of reliable additional funding sources. A budget provision cannot create revenues that have not been collected.

For these reasons, I cannot approve Section 404. The provision imposes a recurring compensation obligation that is not presently supported by a reliable and sustainable funding source and would materially increase the Commonwealth's projected fiscal shortfall.

Section 405. Reduction of Work Hours.

Section 405 provides that a full pay period shall be earned for purposes of annual leave, sick leave, and other benefits, despite the implantation of austerity measures resulting in reduced work hours. I have disapproved this section because it may be necessary for forthcoming austerity measures to implement cuts to ancillary benefits proportionally with cuts to hours.

My administration urges the Civil Service Commission to revise existing regulations to support prudent fiscal policy during periods of austerity. Specifically, when reductions in hours are implemented, corresponding benefits such as sick leave and annual leave should be adjusted in proportion to the reduced hours per pay period. This alignment will help realize meaningful cost savings.

Further, I recommend that the annual leave accrual policy be amended to mirror the federal government's "use-it-or-lose-it" approach, whereby unused leave expires at the end of the calendar year. Such a change would significantly reduce the government's growing unfunded liability associated with accumulated leave balances.

These measures are necessary to safeguard the financial health of the Commonwealth while maintaining fairness and transparency in public service employment practices.

Section 406. Furloughs.

Section 406 states that there shall be no furloughs until rules and regulations are promulgated by the Civil Service Commission. I have vetoed this Section because the existing regulations already authorize furloughs, and individual appointing authorities must maintain the ability to manage their employees to ensure they do not overspend the funds available to them for personnel.

Section 603. Salary Cap.

Section 603(a) and (b) state that subject to a Joint Resolution, all salaries must remain the same as the listed salary in the Governor's FY2027 budget submission on July 1, 2026. I have disapproved this Section because it violates the separation of powers for the Legislature to determine via joint resolution whether funds allocated to personnel may be reallocated within the Executive Branch to ensure that positions essential or critical for delivery of public services can be adequately staffed and will be problematic as it restricts the Executive Branch's ability to respond to operational needs.

Section 605. Revolving Accounts.

Section 605 requires fifty percent (50%) of all revolving accounts and special account cumulative balances as of September 30, 2026, to be reserved for appropriation of the Legislature. I have disapproved this Section because many of these funds have already been committed for contracts and

other obligations in prior fiscal years. This Section also unreasonably excepts the revolving accounts from the reprogramming authority authorized by Section 501.

Section 608. Vacant Positions.

Section 608 provides that any position that becomes vacant shall be closed out. I have disapproved this section because implementation of this provision places an inflexible constraint on the Executive Branch's ability to respond to operational needs.

Section 614. FEMA Reimbursements and Consumer Protection Settlement Funds.

Section 614(a) provides that any cumulative underrun FEMA reimbursements received by the Executive Branch during Fiscal Year 2027 shall be reserved for appropriation by the Legislature. I have disapproved this Section because underrun funds are already included in Commonwealth revenue and cannot be appropriated again.

As noted above, Meta settlement funds referenced in Section 614(b) are not "nonrestricted."

Section 704(g). Legislative Branch.

Section 704(g) allows the expenditure authority for the Legislative Bureau to have unrestricted reprogramming authority to move funding from funding from Personnel to Operations, which specifically includes Utilities, and from Operations to Personnel. I have disapproved the provision authorizing unrestricted reprogramming authority to move funding from Operations to Personnel. Funds for Utilities must be expended for Utilities to ensure that the Legislature remains current on its utility billings as directed by ongoing federal litigation.

Section 705. Executive Branch

I am disapproving Section 705(d), which provides that the Department of Community and Cultural Affairs (DCCA), unlike other CNMI executive agencies, would retain indirect costs from federal grants to support its operations and utilities—costs that would otherwise be statutorily earmarked for the Office of Grants Management. I find no sufficient policy or administrative justification for treating DCCA differently from other executive agencies under this framework.

Accordingly, my administration will direct federally funded programs to support their operational and utility needs through savings generated by transitioning to the lower 7.5 percent indirect cost rate, while maintaining a consistent and equitable approach to the allocation and use of federal grant resources across the Executive Branch.

Section 706. First Senatorial District – Mayor of Rota and Rota Municipal Council.

Section 706(b) of the Act specifically requires the Department of Finance to transfer the \$100,000 appropriated to the Rota Mayor's Office for FEMA-reimbursable typhoon recovery costs to the Rota Municipal Treasury within a reasonable period after the Act becomes law and requires such funds to be used for typhoon recovery costs reimbursable by FEMA.

The FEMA program, however, is administered and overseen by the Public Assistance Office, under the Governor's Authorized Representative. The Department of Finance does not have authority or control over the FEMA reimbursement and drawdown process. Accordingly, the timing of the transfer is dependent, in part, on the availability and receipt of the corresponding FEMA reimbursement funds. I have disapproved the second sentence requiring transfer of \$100,000 upon the Act becoming law.

In addition, I note that the first sentence requires the funds to be used for typhoon recovery costs reimbursable by FEMA. I recommend that the Mayors' Offices consult with the Governor's Authorized Representative regarding which costs are reimbursable.

Section 707. Second Senatorial District – Mayor of Tinian & Aguiguan and Tinian Municipal Council.

Section 707(b) of the Act specifically requires the Department of Finance to transfer the \$100,000 appropriated to the Tinian Mayor's Office for FEMA-reimbursable typhoon recovery costs to the Tinian Municipal Treasury within a reasonable period after the Act becomes law and requires such funds to be used for typhoon recovery costs reimbursable by FEMA.

The FEMA program, however, is administered and overseen by the Public Assistance Office, under the Governor's Authorized Representative. The Department of Finance does not have authority or control over the FEMA reimbursement and drawdown process. Accordingly, the timing of the transfer is dependent, in part, on the availability and receipt of the corresponding FEMA reimbursement funds. I have disapproved the second sentence requiring transfer of \$100,000 upon the Act becoming law.

In addition, I note that the first sentence requires the funds to be used for typhoon recovery costs reimbursable by FEMA. I recommend that the Mayors' Offices consult with the Governor's Authorized Representative regarding which costs are reimbursable.

Section 709. Other Programs.

Section 709(c) provides that funds allocated to the Public School System shall not be used for legal fees including but not limited to the cost of legal representation. I have disapproved the restriction relating to legal representation because such representation is a necessary expense of the autonomous agencies, whether such representation is provided by outside counsel or by agreement with the Office of the Attorney General.

Also, Section 709(c)(1) provides that of the \$25,028,571 allocated to PSS, \$16,177,027.52 shall be allocated for the first two quarters of Fiscal Year 2027 to cover 64 work hours for employees and school operations, with the understanding that the CNMI government will seek additional funds for personnel and operations for the remainder of the fiscal year in the amount of \$7,325,484.00. In addition, Section 709(c)(2) requires a transfer of \$2,696,171.25 to fund PSS's 64-hour personnel and school operations for October 2026 through March 2027. I have disapproved these Sections for two reasons. First, the requirement to transfer the majority of expenses in the first two quarters of the Fiscal Year will frontload the annual appropriations and lead to a shortfall in available funding to the extent that monthly expenditures exceed projected revenue collections. Second, the effect of these provisions budgets a total of \$32,354,055 to PSS for Fiscal Year 2027, \$7,325,484 of which is unfunded. While I appreciate the emphasis on adequately funding the Public School System, any appropriations that exceed \$12,514,285.50 in the first six months of Fiscal Year 2027 must be accounted for through reductions to spending by other agencies and departments. The funding issue cannot simply be deferred to the second half of the year.

In addition, Section 709(e) provides that the Commonwealth Healthcare Corporation shall administer the Health Network Program, and that inter-island medical referral services shall include stipends, airfare, and lodging for patients and escorts. I have disapproved the requirement to include stipends, airfare, and lodging for patients and escorts availing of inter-island medical referral services. The

appropriation for the Health Network Program is insufficient to cover such costs. This is an unfunded mandate.

Section 710. Independent Programs.

The second paragraph of Section 710(b) requires all funds collected for services rendered by the Office of the Attorney General to be reserved to fund the Investigative Division. 1 CMC § 7712 authorizes interagency transfers by way of reimbursements for goods and services performed by the agency. The Attorney General must provide legal services and represent the Commonwealth, its departments, and autonomous agencies. This obligation is set forth in Article III, Section 11 of the NMI Constitution.

To fulfill this obligation under a limited budget, the Attorney General has entered into agreements with various agencies to provide financial support for assigned attorneys. The Attorney General's Office uses this support to fund attorneys' salaries and operations.

The second paragraph of Section 710(b) was vetoed as contrary to the Attorney General's constitutional duties, 1 CMC § 7712, and conflicting with agreements between the Attorney General and the autonomous agencies.

Section 711. Department of Public Lands.

Section 711(a) requires the Department of Public Lands to pay the Department of Lands and Natural Resources for services provided by its personnel, and to provide payments for the landscaping and ground maintenance of all properties that fall under the purview of Parks and Recreation. I have disapproved the last sentence of Section 711(a), which provides for payment for ground maintenance and landscaping work under the jurisdiction of Parks and Recreation, as such work is a statutory responsibility of the Department of Lands and Natural Resources.

In addition, Section 711(b) states that the Department of Public Lands is authorized to expend up to \$800,000 pursuant to a Memorandum of Agreement between DPL, DLNR, and the Mayors of Rota and Tinian & Aguiguan for maintenance and security of public lands. I have disapproved the language referencing "up to \$800,000 annually" because that language does not appear in the referenced Memorandum of Agreement, and the authorized amount should be consistent with the amount in DPL's approved budget.

I urge the Department of Public Lands to timely process and remit payment for invoices submitted by the Division of Parks and Recreation within the Department of Lands and Natural Resources, for services rendered.

I also observe that the Department of Public Lands continues to have an ongoing obligation to comply with the provisions of Executive Order 2025-006.

Conclusion

As we implement the budget appropriations contained in this Act, I remind the Legislature of the urgent need to enact new and sustainable sources of revenue to address the decline in revenues forecast for Fiscal Year 2027. My Administration will take immediate action to implement proportionate budget reductions across the Executive Branch. These measures will include a

forthcoming reduction in Executive Branch work hours consistent with Schedule A, subject to applicable law, regulations, and contractual requirements. These actions are necessary to align government expenditures with available revenues and to preserve the Commonwealth's ability to meet its essential obligations.

With my signature, this bill becomes Public Law No. 24-40. Copies of the public law bearing my signature are forwarded for your reference.
